STELLAR

RHEEM STELLAR®
ELECTRIC & GAS HOT WATER

GAS | ELECTRIC | 1-6 PEOPLE | MAINS PRESSURE | 10 YEAR WARRANTY[1,2]

THE STAINLESS STEEL ADVANTAGE

The stainless steel cylinder in selected Rheem Stellar models not only offers purity and durability, it can help save money in the long run.

- Can resist corrosion for longer than conventional vitreous enamel cylinders
- No sacrificial anode, for reduced lifetime service costs
- Up to 40% lighter[4] than comparable size vitreous enamel cylinders, for easier installation
- Higher temperature settings are possible (Electric models) for even hotter, hot water
- Superior energy efficiency

Internal Cylinder

Rheem Stellar Stainless Steel water heaters are not recommended for installation in some areas.
Refer to the Rheem website www.rheem.com.au for details of areas not recommended and for which product is not covered by warranty.

STELLAR

RHEEM STELLAR®
ELECTRIC & GAS HOT WATER

INNOVATION & PERFORMANCE

RHEEM STELLAR® - FOR SUPERIOR HOT WATER

Rheem Stellar® is synonymous with the best in gas hot water providing superior energy efficiency and hot water recovery. For 20 years, hundreds of thousands of Australian families have appreciated Stellar's high performance ability to service many showers at once.

Now Rheem Stellar® adds even more innovation and performance with the addition of Stellar Stainless Steel to the range. Available in electric and gas models, Stellar Stainless Steel water heaters are designed and built in Australia.

RHEEM STELLAR® IS SIMPLY THE BEST IN HOT WATER

More than ever, Rheem Stellar® offers you the very best combination of performance, durability and features all backed by our 10 year cylinder warranty.[1,2]

Whatever the size of your family, Rheem Stellar® has a model that's right for you. Enjoy superior durability, efficiency and performance, along with the peace of mind that comes with our experience and reputation as Australia's favourite hot water system.

ELECTRIC

RHEEM STELLAR® ELECTRIC STAINLESS STEEL

The new benchmark in electric water heater performance and durability. Rheem Stellar® Electric combines high thermal efficiency with the purity and performance of a stainless steel cylinder in a range of popular model sizes.

- Available in 80L - 315L sizes to suit most Australian families
- Up to 24% better than MEPS[3] reduces energy use, saving you money
- Stainless steel cylinder and water fittings resist corrosion for longer, extending product life
- Up to 40% lighter[4] for easier handling and installation
- No anode saves on maintenance and service costs
- Mains pressure to power many taps at once
- 10 Year cylinder warranty[1] for complete peace of mind
- Proudly made in Australia

UP TO 24% BETTER THAN MEPS[3]

Minimum Energy Performance Standards (MEPS) are a regulated requirement that electric water heaters sold in Australia must meet. Rheem Stellar® Stainless Steel models perform up to 24% better than MEPS, making them amongst the most efficient range on the market today.

GAS

RHEEM STELLAR® 330 & 360

A favourite among families, Rheem Stellar® can deliver 200L of hot water every hour[5] to multiple taps, enough for any family.

- 5 Star energy efficiency
- Superior 200L/hour hot water recovery[5] to get you back in hot water fast
- 330L or 360L first hour capacity[6]
- Mains pressure to power many taps at once
- Patented Rheem Superflue® for superior performance
- 10 Year cylinder warranty[2] for complete peace of mind
- Proudly made in Australia

GAS

NEW RHEEM STELLAR® 330 STAINLESS STEEL

Enjoy up to 235L of mains pressure hot water delivery every hour and the purity and performance of a Stainless Steel cylinder.

- 5 Star energy efficiency
- Stainless steel cylinder
- 185L/hour hot water recovery[5]
- Up to 50L/hour additional hot water delivery (at 65ºC) via the inbuilt adjustable mixing valve[7]
- Mains pressure to power many taps at once
- Big enough for the largest family
- 10 Year cylinder warranty[1] for complete peace of mind
- Proudly made in Australia

The adjustable mixing valve allows you to adjust both the quantity and temperature of hot water delivered, by mixing with cold water to boost delivery by up to 50L/hour at 65ºC[7].

Adjustable Mixing Valve
